Gorgeous, Tall-Flowering DELPHINIUMS

These lovely flowers are grown the world over. If we could have just one perennial, it most certainly would be a Delphinium. They will grow almost anywhere. If cut back after blooming, they will bloom again, and sometimes a third time. Flower stalks often get head-high.

Hello, Folks:

We are very pleased to send you this, our new fall catalog, and we are certain you will find just what you are looking for. Of course, we do not list the number of varieties we do in our big spring catalog, but, after all there is a limit to the number of items that can be safely fall-planted.

You want results, and we want you to have them. That is why we have used extra care in selecting the items we are listing for fall planting. You can select any item with the satisfaction of knowing it is the kind of nursery stock or seed that can be safely fall-planted.

Thanking you for any order you might favor us with, I remain

Geo. W. Gurney
President

ABOUT FALL PLANTING

Plant all perennial flowers in the fall just as you would in the spring. Do not mound dirt over them but be sure and mulch them after the ground freezes. Put good mulch over your bulb bed, using coarse litter or strawy manure. Put a mound of dirt around your bramble fruits as soon as they are planted to prevent heaving from alternate thawing and freezing, and remove this mound early next spring after growth starts.

You can fall plant as long as you can work the ground even if you have to break a frozen top crust several inches thick. Be sure you water thoroughly if the ground is dry, and do not expect most fall-planted stock to show any signs of growth this season as it has gone into a dormant period and will not start until next spring.

Write us if you have growing problems. We are always glad to help you in every way that we can.

FREE GIFT

With every nursery order we receive, it is our custom and pleasure to include with your order a valuable free gift. You will be surprised and pleased when you receive it, and it's our way of saying "thank you" for the fine order.

Gurney's Nursery Stock is GUARANTEED

We guarantee all our nursery stock to be state inspected, free from disease, true to name, and first class in every way.

Examine the nursery stock carefully when you receive it. If you are not pleased with it in every way, return it promptly at our expense and we will replace it at once, or refund your money in full, whichever you prefer.

After you have planted it, if it fails to grow owing to weather conditions or other factors over which we have no control, we will replace losses once at half price the following season, if you notify us not later than Aug. 1, 1954. Accompany your report with a remittance of one-half the original purchase price.

Gurney's Gorgeous RAINBOW Iris

FALL-BLOOMING IRIS

SEE ILLUSTRATIONS AT FAR RIGHT

These Iris grow just like the others, and have blooms that are just the same. The difference is that these bloom not once a year, but twice, first in the late spring and again in the fall. Give you lots of blooms, and still are very economical to plant.

PRICES: 39c each; 3 for 98c, postpaid.

B1152—AUTUMN KING. A beautiful, and very popular, bi-color Iris with large blooms of blue and purple.

B1156—BLACK MAGIC. Pictured at right. It is a rich, velvety black-purple. The picture doesn't do it justice.

B1153—AUTUMN QUEEN. Also pictured at right. This is snow white and often blooms seven months of the year!

B1190—SOUTHLAND. Also pictured at the right. A deep, golden yellow, and winner of the American Iris Society's Award of Merit.

Gurney's RED and PINK IRIS

B1372—ORANGE FLAME. One of the most brilliantly colored Iris in existence. 49c each; 3 for 1.19, ppd.

Gurney's Golden HYBRID SEED CORN

NOW YOU CAN SAVE UP TO \$3.00 PER BUSHEL

Why? Because Gurney's grow their own hybrid seed corn. We have our own modern drying, cleaning and grading plant. We SHIP DIRECT to you and SAVE the agents COMMISSION. We have always believed in fair prices and when others have "jacked" the prices up to a point that it became ridiculous, we did something about it. We are offering you as fine a corn as money can buy—at a saving. Compare our prices with others and you will be convinced. Remember, Gurney's sell direct—no dealers commission—so you save \$2.50 to \$3.00 per bushel. That is a good deal for you.

KNOW YOUR MATURITY

Consider your normal growing season and remember, the law of averages proves it does not pay to try to stretch your luck. If you live where a 100 day corn is about right—DON'T TAKE A CHANCE ON 110 day corn. The numbers for Gurney's Golden Hybrids indicate approximate maturities for our territory. This same corn will mature 5 days earlier for each 100 miles it is moved south, or 5 days later for each 100 miles it is moved north. Again we say DON'T TRY TO STRETCH YOUR LUCK.

NORTHERN GROWN FOR NORTHERN PLANTERS

Gurney's Golden are northern-type hybrids, adapted to conditions in this part of the country and should adapt themselves quickly to your soil and climatic conditions. They are not hard and flinty but real farmer-type hybrids that pick easy by hand or machine. Every bushel is specially treated to protect the seed against soil-borne diseases. They are raised right here at Yankton for your protection.

\$1.00 Per Bushel Holds Any Corn Order Until Feb. 1, 1954

It is more convenient for some of you folks to pay for your seed corn in the spring rather than this fall. Any Gurney's Golden Hybrid or Open Pollinated seed corn will be held till Feb. 1, 1954 if you send in \$1.00 per bushel down payment with your order. This assures you of the corn you want—when you want it.

Save on Gurney's Golden Hybrids

HOW WE SHIP HYBRIDS

Orders for less than 3 bu. sent freight collect. All orders for Gurney's Golden Hybrids in lots of 3 bu. or more and accompanied by a full remittance—SENT FREIGHT PAID—to the following states only: N. Dak., S. Dak., Nebr., Minn., Ia., Mont., Wyo., Colo. To all other states, sent freight collect.

SPECIAL CASH DISCOUNT

Send in your Gurney's Golden Hybrid order accompanied by a FULL PAYMENT and you may take a special 50c per bushel discount. This applies to Gurney's Golden Hybrids ONLY and your order must

be placed BEFORE JAN. 1, 1954.
Prices effective Aug. 1, 1953 and subject to change without notice.

GURNEY'S GOLDEN NO. 85
(83-86 day)

This is the earliest reliable hybrid we know of. You'll be amazed at the yield for a corn as early as this one. Stands well, picks easy, and we'll put it up against any early hybrid on the market.

GURNEY'S GOLDEN NO. 90
(88-92 day)

Larger and a little later than our eighty-five day series. Matures clear to the North Dakota line. Consistently produces heavy yields. One of our oldest and most reliable early numbers.

GURNEY'S GOLDEN NO. 95
(92-95 day)

Larger ear and heavier yielder than our ninety day series but will not mature quite as far north. The heaviest producer in our real early numbers. Thick ear, deep kernel. Matures as far north as Aberdeen.

GURNEY'S GOLDEN NO. 100
(100-105 day)

A reliable heavy producer. Matures easily in the Huron and Brookings area in normal years. Fine for a late planting in Yankton and areas with like growing seasons.

GURNEY'S GOLDEN NO. 105
(105-108 day)

We've had wonderful results with this in the Mitchell and Madison areas. Extra large ears with a beautiful orange tint. Excellent standability and drought resistant. Good picker and high yielder.

GURNEY'S GOLDEN NO. 112
(108-110 day)

This is one we are really proud of. Will produce more corn in a shorter time than any variety we know. High shelling percentage, big yielder. One of our best sellers that can really take it.

GURNEY'S GOLDEN NO. 115
(112-115 day)

Heavy dark green foliage, big ears and stiff stalk. You'll brag about the yields from this corn. Widely adapted. Suitable for the Sioux Falls and Yankton areas and similar climates.

GURNEY'S GOLDEN NO. 118
(114-118 day)

A real beauty with big, rough, golden ears. You cattle feeders will really go for this one. Adapted to southern South Dakota, northern Nebraska and similar climates. A favorite because of its exceptional feeding qualities and its heavy yields.

GURNEY'S GOLDEN NO. 118A
(116-120 day)

Our largest and heaviest producing variety. A close relative to our 115 series. Perfect for northwest Iowa, southern South Dakota, and northern Nebraska. Big ears, stiff stalk, heavy, dark green foliage.

This shows you a small portion of our modern corn plant here at Yankton. We have everything for proper processing of hybrid and open pollinated seed corn. Another reason it pays to plant Gurney's.

Gurney's Dependable OPEN POLLINATED SEED CORN

It's a fact—there is a large "marginal" corn growing area where, year in and year out, OPEN POLLINATED CORNS will produce a BETTER CROP FOR LESS MONEY. You can depend on Gurney's Open Pollinated seed corn. We grow hundreds of acres and know the source of every bushel sold. It is graded carefully and should give you no trouble at planting time.

You will find listed below, 8 of the finest Open Pollinated seed corns grown in America. Each year the demand has increased to a point where we just cannot keep an adequate supply in the spring. You can be assured of the seed you want—when you want it, by ordering this fall.

We do not pay transportation on Open Pollinated seed corn orders. Such orders are shipped Freight Collect. A \$1.00 per bushel down payment will hold your corn order until Feb. 1, 1954. Take 25c per bushel discount if you pay for your order in full. Seed Corn prices subject to change without notice.

GURNEY'S "Tall" RAINBOW FLINT. We originated this corn in 1915. Stalks 7 to 8 ft. with two ears and leafy clear to the ground. Heavy yielder and drought-resistant. Excellent for fodder and hogging off. Can be successfully grown clear to the Canadian line. **Prices Per Bu. \$4.95.**

FALCONER. For North Dakota and northern Minnesota. An early, semi-dent you can't go wrong with. It is hardy and the YIELDS WILL AMAZE you. A truly drought-resistant, northern-type corn that always does a job. **Price Per Bu. \$4.95.**

GURNEY'S AUGUST 15th. We are proud of this one because we know it will do a job for you. This is our origination. Plant by mid-May and generally husk it by August 15th. If the earliest Hybrids have been giving you trouble—try August 15th. **Price Per Bu. \$4.50.**

MINNESOTA 13. A medium-early corn for central South Dakota and like climates. Later than Haney strain. **LARGER** and a **HEAVY YIELDER.** Stands 6-to-7 feet tall. **Price Per Bu. \$3.75.**

MINNESOTA 13 (Haney Strain). Like regular Minn. 13 but earlier. For southern North Dakota and like climates. **Price Per Bu. \$4.95.**

NORTHWESTERN DENT. Beautiful red dent with yellow cap. Wonderful for fodder or grain. A hardy, heavy-yielding, drought-resistant corn for you folks in northern South Dakota and like climates. Its **EXTRA FEED VALUE** makes it **ONE OF THE BEST.** **Price Per Bu. \$4.50.**

GURNEY'S SILVER KING. This open pollinated white corn is a real beauty. Loads of big, beautiful, white ears often 8 to 12 inches long. Brings a nice premium too. For central to southern South Dakota and like areas. Always gives the Hybrids a "run for their money." **Price Per Bu. \$3.75.**

DE WOLF'S PROLIFIC. The largest, heaviest-producing, Open Pollinated variety we sell. Five to seven days later than Minnesota 13. Stands very well. Best for southeastern South Dakota, eastern Nebraska, and similar climates. Be sure you try it. **Price Per Bu. \$3.75.**

A2375X—10 "Finest Pie" rhubarb plants for 98c, postpaid. Special planting grade—will give you all the sauce and pies you can eat.

Famous Chipman's Canada Red

Stalks are large, red from bottom to top inside and out. Cooking does not take its rich color. Sweeter so takes less sugar. Productive and almost seedless. You can pull big stalks from spring until fall. **A3056—Large No. 1 roots, 98c each; 3 for 2.69, postpaid.**

Paper White Narcissus

B6715—A pure white, bunch-flowering Narcissus often having 25 or more individual blooms from one bulb. Popular for growing indoors; so fragrant perfume entire room. 3 for 55c; 5 for 85c; 12 for 1.59, ppd.

CHINESE SACRED LILY

B6702—Looks like a golden narcissus. Much surer blooming than the old Narcissus Soleil D'or so often offered. Clusters of yellow flowers on tall stems. 3 for 55c; 5 for 92c; 12 for 1.65, ppd.

Grape Hyacinth (Muscari)

B6807—Grape Hyacinth have tiny spikes of vivid blue flowers that look very much like miniature blue grapes. An extra hardy plant that comes up year after year. Plant them out in front where they can be seen.

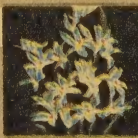

We made a special low-priced buy on these and are passing the savings on to you. 12 for 39c; 25 for 59c; 100 for only 1.39, ppd.

Glory of Snow (Chionodoxa)

B6806—These bloom very early (with the crocus) and produce short stalks with many flowers to a stem.

The flowers are a sky-blue with a center of white. 6 for 35c; 12 for 59c; 25 for 1.10; 100 for 3.99, postpaid.

Early GIANT CROCUS

They Bloom through the Melting Snows

Crocus are a colorful delight every spring because they come up and bloom with the melting snowdrifts and are so welcome after the long winter months. They are first to bloom each spring. Yes, you can grow them among the shrubbery, or right out in the open lawn. Good in corners, or rock gardens, too. Very easy to grow. These are the giant-flowering kind, and Holland grown:

B6415—Purple **B6401**—Blue **B6427**—Yellow
B6426—White **B6417**—Striped

10 for 70c; 25 for 1.49; 50 for 2.39; 100 for 4.25, postpaid.

Bargain in Named Variety Daffodils

B7601X—3 King Alfred, 3 Cheerfulness, 3 Orange Glow and 3 Mrs. Ernest Krelage—all 12 for only 1.69, postpaid.

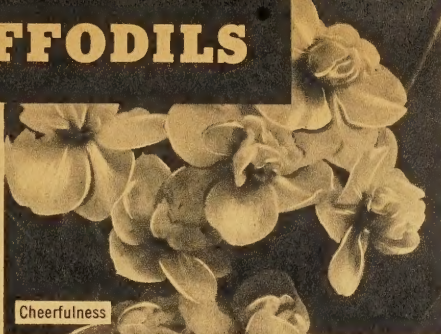

Gurney's DAFFODILS

If you want to be sure of blooms, and want a showing as good as any professional's, plant Daffodils. They are sure to grow in spite of adversity, never giving any trouble, and each spring they produce healthy, gay and colorful blooms. You can depend upon them.

You shouldn't try to achieve formal effects with them. Don't put them in straight rows or squared beds. They look best along the edge of the shrubbery, or strewn across the lawn. Lots of people plant Daffodils by taking the bulbs in handfuls and scattering them rather carelessly across the lawn or a grassy slope. Then they plant the bulbs 5 inches deep wherever they fall. They come up then as a natural part of the landscape, as if man had nothing to do with it. Try it and see for yourself.

To keep them blooming year after year, dig them up about every third year, separate them, and plant them again. Do this in July or early August.

We chose the following Daffodils for you because they not only are some of the best but give you a good range of colors, shapes and sizes. All of them are imported by us, for you, from Holland.

B6610—KING ALFRED. Probably the most popular of all Daffodils, and certainly one of the best. Make a golden yellow flower 4 to 5 inches across with a trumpet 2 inches long. Very good for forcing too. 3 for 50c; 6 for 85c; 12 for 1.49, postpaid.

B6615—ORANGE GLOW. Another large one, usually about 4½ inches across. Has a heavily frilled, deep orange cup. 3 for 48c; 6 for 79c; 12 for 1.39, postpaid.

B6602—CHEERFULNESS. A new one that will delight you. Has several blossoms on each stem, each blossom double, and very sweet scented. Also forces well. 3 for 48c; 6 for 79c; 12 for 1.39, postpaid.

B6613—MRS. ERNEST H. KRELAGE. Like King Alfred excepting the color is ivory white. 3 for 63c; 6 for 1.10; 12 for 1.99, postpaid.

B6621—RED RIM (Actea). A large white flower with yellow eye and broad edge of deep orange red. 3 for 58c; 6 for 92c; 12 for 1.65, postpaid.

B6609—INDIAN CHIEF. A strikingly beautiful new double Daffodil that you will like. Illustrated at left. 3 for 60c; 6 for 98c; 12 for 1.75, postpaid.

B6614—MRS. R. O. BACKHOUSE. This is the famous Pink Daffodil. Very beautiful, and of good substance and long lasting. Ivory white petals with long trumpet of apricot-pink having a fringed edge of shell-pink. 3 for 70c; 6 for 1.25; 12 for 2.29, postpaid.

B6624—THE NEW SUNSET. A new beauty from Holland. Deep scarlet-orange cup and bright golden yellow petals. One of the best short cup varieties. 3 for 48c; 6 for 79c; 12 for 1.39, postpaid.

SUPER DAFFODIL OFFER

B7602X—2 each of the 8 varieties listed here. 16 Daffodils in all for only 2.19, postpaid.

HYACINTHS

Extra hardy, easy-to-grow flowers of colorful beauty and having a sweet, delicate scent.

Like Daffodils, Hyacinths are very hardy and easy to grow, requiring very little attention. In fact, they are very good planted with Daffodils. But unlike Daffodils, they usually are planted more formally—in rows or beds—although they may be handled informally. They usually get about 12" high, and are especially good as a front for Tulips, or may be combined with the lower-growing flowers such as Grape Hyacinth or Pansies. Hyacinths like a rich, well-drained soil and are best planted about 6" deep and 6 to 9" apart.

Hyacinths also are a favorite for in-

door forcing. Special glasses are made for this purpose, but a Mason jar will do. Just place the bulb on the top rim of the glass or jar and fill the jar with water until it touches the root base. Keep in a cool, dark place, adding water (but not changing it) as necessary. When the bulb gets about 4 inches of top growth (this usually takes about 8 weeks), place in a north window and they will bloom beautifully. This forcing should be started in midwinter—December, January or early February.

Hyacinth Prices: 3 for 69c; 6 for 1.25; 12 for 2.29; 25 for 4.25, postpaid.

B6502—BISMARCK. The best blue Hyacinth. A deep porcelain blue with broad, well-formed spikes on strong stems. Excellent for early forcing too.

B6530—PINK PEARL. A lovely bright pink—really a rose-pink with lighter edges. Has a large spike of fine bells.

Very fine for a late Easter.

B6522—L'INNOCENCE. This is the best and most popular white Hyacinth. Has broad, well-shaped bells that are pure white. Blooms early.

B6504—CITY OF HAARLEM. The best yellow Hyacinth. Has well-formed trusses of golden yellow flowers.

B6520—LA VICTOIRE. A brilliant carmine-rose that blooms very early. Has large, well-filled spikes. A very showy variety ideal for adding bright color to your garden.

RED, WHITE & BLUE TRIO

B7501X—1 Red (La Victoire), 1 White (L'Innocence), and 1 Blue (Bismarck)—all 3 for 55c, postpaid. 4 collections (12 bulbs) for only 2.39, postpaid.

HYACINTH GARDEN SPECIAL

B6056—Its blood-red color gives it the brilliance and enchantment of a flaming fire. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, ppd.

WHITE GIANT

B6136—Large, snow-white petals on tall, strong stems. One of the best of all white tulips. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, postpaid.

PRIDE OF HOLLAND

B6110—A very large yellow with a red edge. Makes a very attractive garden tulip. 3 for 50c; 6 for 85c; 12 for 1.49; 25 for 2.59, postpaid.

SYMPHONIA

SNOW PRINCE

EROS

Gurney's Giant Double Peony-Flowered TULIPS

Imagine tulips so big and double they look like lovely peonies. Fragrant and long stemmed. Far superior to the old, squat, short-stemmed, early double tulips. Bloom same time as Darwins.

SYMPHONIA

B6043—Large, brilliant, rosy-carmine flowers on tall stems. A sport of Darwin, Pride of Holland. 3 for 60c; 6 for 98c; 12 for 1.75, postpaid.

SNOW PRINCE

B6042—Beautiful double white. Large flowers resembling a pure white peony. 3 for 60c; 6 for 98c; 12 for 1.75, postpaid.

EROS

B6034—A gorgeous pink, tinted silvery rose toward the edge. A fine variety. 3 for 67c; 6 for 1.20; 12 for 2.15, postpaid.

BONANZA

B6031—The new double. Each red petal brilliantly edged with bright gold. A striking color combination. 3 for 55c; 6 for 89c; 12 for 1.59, postpaid.

UNCLE TOM

B6045—Rich dark red. Huge flowers. Does well even in semi-shade. Really outstanding. 3 for 70c; 6 for 1.25; 12 for 2.29, ppd.

DOUBLE DELIGHT OFFER

B7027X—2 each of the above 5 varieties. 10 bulbs in all, not labeled, for only 1.59, postpaid. This is one of our finest offers.

RED SIGNAL

B6117—The biggest, reddest and one of the finest of all the Darwins. Has beautiful, bowl-shaped flowers. 3 for 50c; 6 for 85c; 12 for 1.49; 25 for 2.59, ppd.

QUEEN OF THE NIGHT

B6113—The best and darkest of all the "black" tulips. Large flowers on long, stiff stems. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, postpaid.

GRENADEER

B6074—One of the brightest colored reds. Large flower. Has pleasant, sweet fragrance. One of the best for bedding. 3 for 55c; 6 for 89c; 12 for 1.59; 25 for 2.79, ppd.

CLARA BUTT

B6059—Most popular tulip of all. A fine clear pink, flushed salmon rose. Splendid bedder. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, ppd.

YELLOW GIANT

B6141—The best all-yellow Darwin. Rich, bright, golden yellow. Very large. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, ppd.

DARWIN TULIPS

The Darwins have long been the most popular of tulips because they have a full range of beautiful colors and make such good effects planted in beds, borders or along with other flowers. They have long, strong stems, usually 2 feet or more tall. Of course, one of the nicest things about Darwins is that they cost so little. They bloom in May, adding beauty to the early spring garden.

AFTERGLOW

B6050—Finest of the orange varieties. Flower is deep rose-orange with salmon edges. 3 for 45c; 6 for 75c; 12 for 1.19; 25 for 2.29, postpaid.

MAUVE BEAUTY

B6097—New. Beautiful mauve (silvery heliotrope), with a shade of lilac toward the edge of the petals. 3 for 50c; 6 for 85c; 12 for 1.49; 25 for 2.59, ppd.

QUEEN OF THE NORTH

B6114—Largest of all Darwins. A bi-colored white edged clear pink. A beautiful tulip. 3 for 58c; 6 for 92c; 12 for 1.65; 25 for 2.99, ppd.

NAMED VARIETY COLLECTION

B7062X—2 each of the 12 named Darwins shown here. (Full collections of bulbs only.) 24 bulbs, 2.25, ppd.; 2 collections (48 bulbs), 4.19, ppd.

AMERICAN FLAG

B6350—Newest and probably best of the Rembrandt tulips. Bright red, striped and flaked with white. We made a good buy on these and are passing the saving on to you. 3 for 58c; 6 for 92c; 12 for 1.65; 25 for 2.98, ppd.

REMBRANDT

B6374—These are the famous "painted tulips" and ours are the true Rembrandts, direct from Holland where the best of this kind are grown.

We have always liked Rembrandts because we know most people like plenty of color and the Rembrandts certainly are colorful. They grow like Darwin tulips, are

about the same size and shape, but the flowers are beautifully striped, flamed and tinted with gorgeous colors. Every garden should have some of these lovely tulips. If yours hasn't, order some Rembrandts this fall. They will be the envy of your neighborhood. Mixed Rembrandts (all colors) 3 for 55c; 6 for 88c; 12 for 1.59; 25 for 2.79; 100 for 9.98, ppd.

MONS MOTTET

A Whole Bouquet on One Stem

B6027—You'll like this bunch-flowered one because it produces 3 to 5 large tulips on tall stems! Each blossom is a beautiful white with a delicate shading of pale rose. This tulip not only is different but is one of the most outstanding tulips we offer. A nice bed of these will be the envy of all your neighbors. 3 for 55c; 6 for 90c; 12 for 1.59; 25 for 2.79, postpaid.

4 BRAND NEW TULIPS

B6138—WILDFIRE. Large canary-yellow with red flames. A long lasting, Mayflowering tulip. Very pretty. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.

B6055—BLACK GIRL. The nearest to being a true black tulip. Large flowers on tall stems. Plant with brightly colored tulips to show it off. 3 for 63c; 6 for 1.10; 12 for 1.98, ppd.

B6056—BLUSHING BRIDE. Beautiful, creamy-white

flower that turns to white with slight touch of delicate rose. A new shade. 3 for 63c; 6 for 1.10; 12 for 1.98, ppd.

B6123—SCARLET GLORY. This one has huge flowers and is brilliant scarlet. Very long stems. 3 for 60c; 6 for 98c; 12 for 1.75, ppd.

NEW VARIETY OFFER
B7071X—3 each of the 4 new ones pictured above. Labeled. Only 1.95, ppd.

SCARLET GLORY

RED EMPEROR

The Largest, Most Brilliant of All

B6118—This one is at the top of the tulip "hit parade". If you want a tulip that has everything plant Red Emperor. Huge size, dazzling red brilliance and blooms early along with the daffodils.

Plant some on each side of the front steps. Or plant a whole bed of them. You'll really have something to show. People will see them from a block away! If we could plant just one tulip, this would be it. 3 for 50c; 6 for 85c; 12 for 1.59; 25 for 2.89, ppd.

New FRINGED TULIPS

Nothing quite like these popular, gorgeously colored, fringed tulips. Some are brilliantly striped green and yellow like a parrot. Others are filled red, blue, pink, yellow and white. All are big—often 7 or 8 inches across.

BLAZ-O-MUMS

These miracle mums start blooming the first year. By late summer and early fall they are completely covered with beautiful flowers. We have seen many Blaz-O-Mums 3 feet across and 2 feet high covered with flowers so solid and thick that no foliage showed. By actual count, over 1,000 blooms on some plants the first year and even more the second. Do well everywhere.

For Better Plants,
Lawns and Trees
FEED THEM

GREEN THUMB PLANT FOOD

Easy, Safe, Inexpensive

If your plants get hungry and sickly, with yellow leaves, stunted growth and few flowers, they need food and water and cultivation. You can spend hours fertilizing these hungry plants or you can use Gurney's GREEN THUMB PLANT FOOD and do a better job in a short time. Very good for starting newly planted things off right too.

Besides being an excellent food for indoor and outdoor plants and flowers, it works

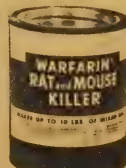

equally well on lawns, shrubs, trees and vegetables. That's because it is composed of important plant nutrients that, when mixed with water, become available immediately to the hungry roots. You can see results in a few days.

Just mix 1 tablespoonful with a gallon of water and pour around plant just like you were watering. It is odorless and non-poisonous, but contains the nutrition growing things need.

LOW COST

1 tablespoonful of Gurney's Green Thumb Plant Food plus water makes 1 gallon of liquid fertilizer. No. 4041—15-oz. pkg. only \$1.09, ppd.

WARFARIN Sensational New Rat and Mouse Killer

4070—This fall is the ideal time to rid your premises of rats and mice. Easy to use and safe. 4 oz. can (makes 5 lbs. of bait), 1.75; 8 oz. can (makes 10 lbs. of bait), 3.00, postpaid.

These are Balled and Burlapped Evergreens, shipped to you in the soil they grew in. Each tree has been transplanted several times to develop a strong, compact root system. Soak well after planting and keep watered until ground freezes. Shipped express not prepaid to assure prompt delivery to you.

BLACK HILLS SPRUCE

IN6—South Dakota Indians named it because its compact growth imprisoned shadows and, from a distance, made hills look black. It really is silvery. Ideal for landscaping, wind-breaks, lawn tree.

Fall Seed for a Weed-Free Lawn

Whether you are seeding a new lawn or rejuvenating an old one, you just cannot beat a fall seeding.

One of the main advantages of seeding in August or September is the fact that you eliminate a good share of your weeds. You'll have an established beautiful lawn by the time the snow flies. The main weed crop in the spring won't be able to take it over.

It never has paid to sow "cheap" lawn seed and it never will. We harvest our own Blue Grass and it is absolutely "tops" in quality—northern-grown seed. Remember to seed early in the fall for best results.

All Gurney's Lawn Seed is Hormone Treated

When you buy lawn seed from Gurney's you get Hormone-treated seed—at no extra cost. This Hormone treatment makes the seed germinate better and the seedlings are more resistant to soil-borne diseases and "damping off". The resulting heavy root system means a Gurney lawn can stand more drouth, more wear and traffic. Have a richer, greener lawn next spring with our Hormone-treated seed.

KENTUCKY BLUE GRASS

FINEST EXTRA-HEAVY SEED—Heavy seed means weed-free seed. Start your new lawn early this fall for best results. Blue Grass is a slow starter, but it lasts for years. We have true Northern-grown, Northern-harvested Kentucky Blue Grass of extreme hardness. Use 1 lb. for 225 square ft. 1 lb. 1.20; 3 lbs. 3.45; 5 lbs. 5.65; 10 lbs. 10.95, postpaid.

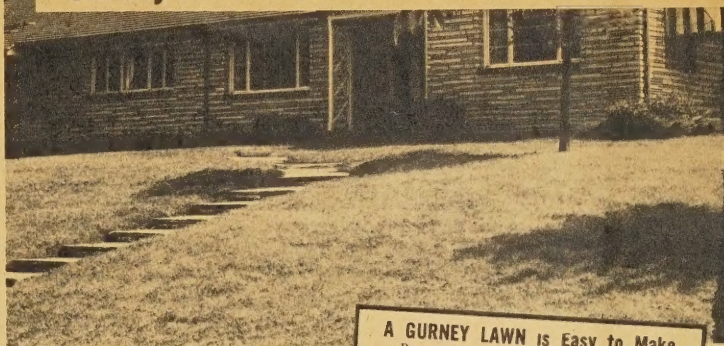

NEW CREEPING BENT GRASS

Everybody likes Bent Grass for lawns. This is the true creeping variety and is harder and more drouth-resistant than any other we know of. Bent Grass requires more care and moisture than other types but is well worth the trouble because of its unusual beauty. 1 lb. 1.25; 3 lb. 3.45; 5 lbs. 5.65, postpaid.

WRITE FOR DECEMBER FIELD SEED SPECIAL

Now you can save even more on your next spring field seed needs. By November we know pretty well how we stand on seed stock and for about six weeks (till Dec. 31st) we have a special Field Seed sale that will always save you money. More and more that are ordering from our December Special before they are ordering from our November Special because it not only saves them money but assures them the seed they want come planting time. We mail of this special offer on request about the middle of November. Write for your copy of the December Field Seed Special, or just clip this coupon to your order and we'll see you receive it.

Gurney's Northern Grown LAWN SEED

A GURNEY LAWN is Easy to Make

Preparation of the ground is important. First plow or spade deeply. Level off the area to be planted and rake to remove sticks, trash, stones, or lumps.

After raking smooth—Roll the lawn thoroughly. This allows you to plant the seed more evenly, plus providing a firmer seed bed.

After rolling—Sow the seed, generally using 1 lb. of lawn seed to every 225 sq. ft.

After seeding—Rake carefully to work the seed slightly into the soil.

After this raking—Roll your lawn, using a roller or packer. This is important. Keep it well-watered (each day) for the next 2 or 3 weeks. Moisture is necessary for proper germination.

NEW MERION BLUE GRASS MIXTURE

This new 100% perennial grass mixture is a dandy. Contains approximately 30% Merion Blue and the balance the right proportions of Creeping Fescue, Highland Bent plus plenty of Poa Trivialis. For an extra-heavy turf, dark green lawn that stays green, stands closer mowing, is disease resistant and perfectly hardy, plant this Merion mixture. Fall is the ideal time to plant.

Merion Blue Grass doesn't "go to sleep" in the summer months. Stays dark green, low-growing, disease-resistant and helps fight off Crabgrass invasion. 1 pound of mixture covers 750 square feet. Goes 3 times farther than regular blue grass mixtures. Takes less seed when you plant Merion mixture so your actual cost is no more and you have a nicer lawn. Try it!

1 lb. 2.85; 3 lbs. 8.35; 5 lbs. 13.85; 10 lbs. 27.65. All postpaid.

MERION BLUE GRASS

For those of you who want the pure unmixed Merion Blue, we can take care of your needs with fine quality seed. Plant one pound to 750 square feet. 1 lb., 4.95; 3 lbs. 14.65; 5 lbs. 24.35, all postpaid. Absolutely the last word in Blue Grass. Order yours now while we have it. Don't wait until spring to order.

SHADY SPOT LAWN MIXTURE

We all know it is hard to grow good lawn grass in the shade. Where the lawn is shaded half the time or more, Gurney's Shady Spot Lawn Mixture is the grass to use. Very similar to the famous Sunshine Mixture, except it contains ample Fescue and Poa Trivialis for the shady spots. Sow 1 lb. to every 200 square ft. 1 lb. 95c; 3 lbs. 2.65; 5 lbs. 4.45; 10 lbs. 8.65, postpaid.

SUNSHINE MIXTURE

More Kentucky Blue Grass, plenty of Red Top and Rye Grass for nurse crops and to give you a quick early lawn. Enriched with Red Fescue and White Dutch Clover to provide permanency and rich greenness.

Sow seed evenly, roll thoroughly and water liberally. 1 lb. 95c; 3 lbs. 2.65; 5 lbs. 4.45; 10 lbs. 8.65. All postpaid.

CAPITAL MIXTURE

Best lawn mixture for the Northwest. Half Kentucky Blue Grass, balance White Clover, Rye Grass, Red Top and Crested Wheat. Best mixture known for places where rainfall is light and artificial watering impossible. 1 lb. 85c; 3 lbs. 2.40; 5 lbs. 3.95; 10 lbs. 7.95. All postpaid.

WHITE DUTCH CLOVER

This is the 3- and 4-leaved lawn clover. It is hot weather-resistant; grows nicely and quickly from seed. It is also an excellent pasture grass; use 5 lbs. per acre for pasture. Add 1 lb. to every 5 lbs. of Blue Grass is you want to improve the beauty of your lawn, or sow alone in the lawn at the rate of 1 lb. per 1,000 square ft. Roll it in. 1 lb. 1.15; 3 lbs. 3.30; 5 lbs. 5.25, postpaid.

LILIES

New CENTIFOLIUM HYBRID

B5020—These are magnificent pure white hybrids from the West Coast, and far outshine the Regal Lily in every respect. They are the result of over 15 years of hybridizing, and the crossing of dozens of lily species. The plants have an abundance of rich green foliage and each year add more and more flowers to their clusters—sometimes great clusters of 50 or more huge blossoms crown the top of a flowering stem.

The flowers are trumpet-shaped, as you can see by the photograph at the far left, being pure white inside with the reverse of the petals often pink, emerald green, or brown, making some beautiful color contrasts. Very hardy and, because of their deep root system, stand severe drought well. Plant 6 inches deep. 59c each; 3 for 1.49, postpaid.

Here are some of the very good popular lilies, plus some outstanding new ones that are easier to grow and more beautiful than any you have ever seen before.

All lilies listed here can be planted this fall. If you live where the ground freezes, mulch with 4" of coarse straw after (not before) the ground is frozen.

Madonna Lily Improved Cascade Strain

B5023—The result of years of work by a French hybridist, this new Cascade strain has tremendous vigor and surpasses all other Madonnas not only in height of stalk and size of flowers but also in resistance to the fly disease. Bortyris. Plant not over 2 to 3" deep. Must be fall planted. 59c each; 3 for 1.49.

3 Outstanding NEW Hybrid LILIES

The three lilies described below are the result of over 20 years of hybridizing by Mr. Carlton Yerex of Oregon. Lily experts already have recognized them as three of the world's best and most beautiful strains of lilies.

B5000—AURELIAN HYBRID. These are wide, flaring trumpet lilies six inches and more across in beautiful color combinations, including sunburst effects. Tall, sturdy plants are very easy to grow; live a long time; are entirely hardy. Plant 6" deep. 1.89 each; 3 for 4.98, ppd.

B5024—PINK TRUMPET. Long trumpet lilies that actually are a beautiful shell pink. Also very hardy and easy to grow but the lilies are apt to fade in hot, direct sunlight so give best results in partial shade. Or screen some at time of blooming. Plant 6" deep. 2.75, ppd.

B5035—YELLOW TRUMPET. From the same seedling strain as the spike of blossoms that won the Griffith Cup and the Sweepstakes Award at the 1950 National Lily Show, and "Award of Merit" at the 1951 show. Grows much like Regal, but in beautiful shades of clear yellow and apricot, with stronger stems and larger flowers. 2.00 each; 3 for 5.98, ppd.

SPECIAL LILY COLLECTION

B3452X—1 Coral, 1 Regal, 1 Flame, 1 Pink Show, 1 new Centifolium Hybrid—all 5 for only 1.89, ppd.

RAINBOW HYBRIDS

B5026—These are big, brilliantly colored new hybrids from the west coast. Have a lot of Flame Lily (Red Russian) parentage, so are absolutely hardy and very easy to grow. The gorgeous colors run from pale yellow to deepest golds with many maroons and red. Tall, strong stems. A real buy at our low prices of 59c each; 3 for 1.49; 5 for 2.25, ppd.

PINK SHOW

B5030 (Speciosum Rubrum). One of the most beautiful of the better known lilies. Carmine red on a white ground with crimson spots. Very hardy. Plant 9" deep. 75c each; 3 for 1.98, ppd.

2 TIGER LILIES

B5033—Single Flowered.
B5032—Double Flowered. Large, brilliant, orange-red flowers dotted purplish black. Plant 8 to 9" deep. 35c each; 3 for 79c; 5 for 1.19, ppd.

REGAL

B5027—One of the most popular lilies. The pure white petals are tinged lightly yellow inside, lilac outside. A profuse bloomer. Plant 8 to 10" deep. 35c each; 3 for 79c; 5 for 1.19.

HENRY

B5019—Grows up to nine feet tall with many large, brilliant orange flowers. One of the best and strongest growing. Plant 10" deep. 35c each; 3 for 1.49; 5 for 2.25.

FLAME

B5007—(Red Russian). You can depend upon it to produce an amazing number of huge, brilliant clusters of fiery scarlet blossoms. Grows well anywhere. Entirely hardy. 35c each; 3 for 79c; 5 for 1.29.

GURNEY'S Hardy Peonies

SARAH BERNHARDT

B1560—Considered by peony experts to be one of the finest. You will be amazed at the size of this giant pink. The petals are long and pointed, the outer ones being a rose pink and the inner ones forming a full, fluffy center of pale shell pink. The plant is of medium height with strong stems. A very showy mid-season peony ideal for exhibition. 1.00 each; 3 for 2.69, postpaid
